

WHO IS HORNER ?

Welcome to Horner Flooring, the oldest and longest-standing member of the Maple Flooring Manufacturers Association (MFMA), with roots dating back to 1891 – the same year the game of basketball was invented by Dr. James Naismith.

Over the past century plus, Horner's commitment to quality of both product and services has been demonstrated most importantly by our relationships. These include providing the NBA All Star Floor for 26 years in a row, 20 plus years of providing special event flooring for the NCAA, Olympics Games and Commonwealth Games. Our track record of over 11,000 floors installed across the United States since 1980 alone continues to secure Horner's place as the leader in the sports flooring industry.

Horner's R&D continues to lead the industry with innovative sport floor systems for which Horner has been recognized for many decades. Horner's cutting-edge flooring solutions continue to meet the needs of the most discerning customers, from elementary schools to NBA and Olympic caliber competition.

Partnering with only the highest quality flooring contractors allows Horner to provide the essential assurance to architects and end users that the sport flooring system will be installed on schedule and maintained in accordance with the high standards prescribed by Horner.

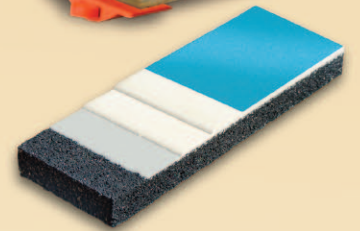

Quality will always remain the hallmark of Horner and its dealer network.

Our product line includes wood and synthetic systems that cover the gamut of surfaces for virtually every sports activity. All Horner systems are engineered for the very best in athletic performance, structural integrity, trouble-free maintenance and long lasting appeal.

Our goal has always been to be the best – and LEED documentation gives us another opportunity to demonstrate why Horner will always be an industry leader in sports flooring. By developing Horner's own LEED logistics documents based on USGBC submittal forms, Horner has taken the guess work out of all LEED construction.

We welcome the opportunity to demonstrate to you first-hand, why Horner is recognized as the leader it is. This position in our industry has been earned. We look forward to earning your trust.
